Summary of the General Assembly on 24 June 2022 in Bochum

After only 8 months, our General Assembly took place in Bochum on 24 June 2022. Unfortunately, due to corona, again without suppliers.

As already communicated in the invitation circular of 09 February 2022, we had to decide on Bochum again at short notice, as the hotel in Heidelberg, despite a promise in October 2021, could not firmly promise us the required rooms.

Due to the small number of participants, we were able to hold the General Assembly in our meeting room for the first time. Our Chairwoman of the Supervisory Board, Ms Laura Lang, warmly welcomed the participants and passed the floor to Mr Ansgar Herrmann.

Mr Herrmann excused the absence of Mr Maximilian Leitenstern, as he was unable to attend for health reasons.

Due to our staff situation, the audit by the Genossenschaftsverband e. V. could not yet be fully carried out by the time of our General Assembly. Mr Sebastian Wißmann, our responsible auditor, confirmed no irregularities or deviations.

The key data of the balance sheet for the financial year 2021 are:

- I. Total turnover in the 2021 financial year amounted to € 15,484,000 and was 5.5 % above the previous year's turnover.
- II. The warehouse business was € 8,780,000 9.13 % above the previous year.
- III. The reimbursement for the financial year 2021 amounts to 3.25 %, which corresponds to an amount of € 378,356.55.

There were no new or re-elections.

The discharge of the Supervisory Board and the Executive Board was again led by Mr. Alfred Lehmann. The General Assembly unanimously discharged the Supervisory Board and the Executive Board.

The statutory and voluntary reserves were also unanimously approved.

Furthermore, after the presentation of the implementation concept, the dissolution of EDEL Schuhbedarf GmbH was unanimously decided. You will receive further information on this shortly.

Our next General Assembly will take place on 12 May 2023 in the Erfurt / Weimar area.

The subsequent opportunity to visit the warehouse was used extensively.

We then ended the day with our guests until the early hours of the morning at our barbecue.

Talcum pharmaceutical quality

As the manufacturer has recently channelled its distribution channels for the pharmaceutical products, access to these products in general has become much more difficult. This has also resulted in significant price increases. Despite all this, we are convinced that one should not save money at the expense of quality, especially when used in the orthopaedic sector. The quality we offer is used in the pharmaceutical and cosmetics industries, among others, and cannot be compared to simple industrial qualities.

The new prices for talcum powder boxes and bags can be found in the price changes.
