NEWS

Salamander Professional Waterproofing Spray

Salamander Professional Universal is the ideal waterproofing spray for all smooth and rough leathers as well as textiles, including those with climate membranes (Tex materials). The special protective formula effectively repels snow, mud and dirt and prevents the formation of snow and water marks.

Art. no. 20495360000, 300 ml can € 2.41 per can RRP € 12.95

Warehouse information

nora® company, Weinheim

Since 1 October 2022, nora® company has levied an energy cost surcharge of 5 % on the net value of the goods. We therefore have to adjust our prices at short notice, even from our Bochum warehouse.

Wooden pins – delivery problems

For some time now, certain wooden pins have been sold out. Our supplier informs us of the following:

“Unfortunately, we have not been able to produce wooden pins for shoes until now. We regret that we cannot supply you with the goods and cannot give you a date. Our capacities are fully utilised with the production of polishing woods. The production changeover to shoe nails requires considerable effort and cannot be carried out at present.”

Warehouse information

Inventory 2022

This year's inventory will take place on

December 22 and 23, 2022

The final **order date is Thursday, December 15, 2022** and **final date of dispatch as well as pick-up date is Monday, December 19, 2022.**

For organizational reasons we can not consider repeat orders we received after December 15, 2022. Shipments of these repeat orders we have to make in the new year. Backordered stock- as well as special-items we will receive until December 15, intended for German customers, will be delivered on December 19.

In the period from **December 24, 2022 to December 30, 2022** our company will be closed. We are at your disposal again from January 02, 2023.

Transport of frost-sensitive products

Like every winter please note that we can not ship **ZEL-rigid foam, PUR foams, "Hirschkleber"** and all other **water-based adhesives** as well as the dyes **Elvira, Graffity** and **lecare** at a temperature below 6°C. We will ship frost-sensitive products only if it's ensured in meteorological terms, that no temperature damage can occur. If you wish that we, in any case (but on your own risk) have to ship frost-sensitive products yet, please indicate it particularly as long as temperatures will allow again a frost-free shipment in principle. Should you decide for a shipment, as the daytime **temperatures are above 6°C**, **you should also note the night temperatures because trucks usually will not be parked frost-resistant overnight as well as on weekends.**

Hints

Art.-no.	The following articles we had to withdrawn from our product range:
10104604006	SPORT CLUB 164
