Warehouse information

Inventory 2022

This year's inventory will take place on

December 22 and 23, 2022

The final **order date is Thursday, December 15, 2022** and **final date of dispatch as well as pick-up date is Monday, December 19, 2022.**

For organizational reasons we can not consider repeat orders we received after December 15, 2022. Shipments of these repeat orders we have to make in the new year. Backordered stock- as well as special-items we will receive until December 15, intended for German customers, will be delivered on December 19.

In the period from **December 24, 2022 to December 30, 2022** our company will be closed. We are at your disposal again from January 02, 2023.

Transport of frost-sensitive products

Like every winter please note that we can not ship **ZEL-rigid foam, PUR foams, "Hirschkleber"** and all other **water-based adhesives** as well as the dyes **Elvira, Graffity** and **lecare** at a temperature below 6°C. We will ship frost-sensitive products only if it's ensured in meteorological terms, that no temperature damage can occur. If you wish that we, in any case (but on your own risk) have to ship frost-sensitive products yet, please indicate it particularly as long as temperatures will allow again a frost-free shipment in principle. Should you decide for a shipment, as the daytime **temperatures are above 6°C**, **you should also note the night temperatures because trucks usually will not be parked frost-resistant overnight as well as on weekends.**

Warehouse information

Hexa4Grip®-Shoe Tray

The OK company offers us a hexa4GRIP® shoe tray at a price of € 38.27 net. The hexa4GRIP® shoe tray is correspondingly practical and can be used in various areas such as the entrance to the house, hallway, terrace or garage. The hexa4GRIP® shoe tray is vegan, has an ideal size, is contemporary in design and sustainably manufactured in Germany (social & ecological sustainability according to PFI guidelines 100 % vegan eco).

When vulcanising shoe components or shoe soles made of rubber, there is automatically always waste that is usually disposed of. Thanks to enormous development work by OK's own laboratory, the hexa4GRIP® shoe tray is made of 70 % (!!!) of exactly this own rubber waste. Despite the enormously high recycling proportion, it was possible to realise a high-quality rubber product. Production waste is thus sensibly used as a material without long detours and transformed into new, extremely practical and durable products. Attached you will find a picture of the shoe tray.

If you are interested, please contact Marcus Kotthoff (phone 0049 234-33 81 105 or e-mail: marcus.kotthoff@zel.eu).

Discount group 44

We had to change the discount group 44 of our price list from 18 % to 17 %. We ask for your attention.

Calendars 2023 from Topy

Topy will no longer distribute calendars for 2023. We received the following e-mail from Topy on 09.11.2022:

Ladies and gentlemen

Currently, and more than ever, the world is facing major challenges, which we must meet by reacting and making the necessary efforts.

Our long existence has proven that we adapt to each situation with a single watchword: to be at your side.

In order to keep our word, we must rethink our instruments and direct them in the right direction.

Warehouse information

As such, you will not receive calendars this year because you also have to know how to renew yourself, we have decided to redirect these expenses towards more training and online marketing tools to support you in your commercial approach, such as our newsletter to come and more that we will have the pleasure to share with you very soon.

Your Topy team at your service.

BNS company, Mainz

Since October, BNS has been charging us a net unit surcharge on many items. We pass on this surcharge 1 : 1 on the discounted retail prices.

Hints
